Hallo dear MMMonVHF friends,

one day earlier as usual (due to the MMMonVHF Meeting in Hungary
were we will try to be as well qrv during the contest from JN86)
please find below our latest NEWSLETTER of the VHF-DX-Portal
"Make More Miles on VHF" (www.MMMonVHF.de) dated 2009-04-30
We attempt to distribute our Newletter one or two times per week.
For further detail please be so kind and refer at our "News"-page:
http://www.mmmonvhf.de/latest.php - welcome and enjoy...

Hello all, I am pleased to announce the Super 7's Meteor Scatter
Group has a new award available to promote long distance contacts
using meteor scatter. The award is called the 10,000 mile award
and requires completing meteor scatter contacts using FSK441 for
a total of 10,000 miles. Sounds easy doesn't it BUT there is a
catch. All contacts must be 1,000 miles or more. Full details of
the award can be found at www.ykc.com/wa5ufh/Super7/S7Index.htm
A sample of the award will be posted there shortly. Have fun!

Henk, ON4AHF and Dirk, ON5GS, (the winner of the MMMonVHF
TROPHY 2008) will be for a week in "Leverburg" in IO67, southcoast
Isle of Harris. He will be supporting MM0RAI/p (IO37) as a PILOT
station on VHF from the mainland. Dirk did send latest News via
his MMMonVHF DXBlog 2009-04-29 (contact Dirk MM/ON5GS/p at:
http://www.mmmonvhf.de/showblog.php?ca=MM-ON5GS-P)
just worked ON6LEO in meteorscatter and seems all is working after
repairing the transceiver twice and bad connector in antenna. QRV
all day and all skeds welcome. Also EME requests welcome during
set/rise - Bad news from the rockall team MM0RAI/p: due to the bad
WX condx and too high waves (9m expected) the landing on the rock

will be far to dangerous... I feel very sorry for my friends who
prepared this trip for so long. They are returning to stornoway...
SOURCE: Dirk, ON5GS, direct to MMMonVHF

This year Frank DH7FB and Bernd DF2ZC will activate IS0 (JN40TJ)
on 144 MHz and be qrv as IS0/DH7FB and IS0/DF2ZC.
Both will use their MMMonVHF DX Blog at:
http://www.mmmonvhf.de/showblog.php?ca=IS0-DH7FB"
to spread latest News. Today at around 05 UT Frank and Bernd
did start by car on their trip down to sardinia island...

Transatlantic Experiment 2009: VO/DM8MM GN36MU
VO/DM8MM planning activity from Newfoundland "From the rock" (GN36)
from 7.8. until 21.8.2009. Friedhelm did make serious plans to
activate that place to have some chance on the BRENDAN TROPHY
(The Brendan Awards are designed to encourage experimentation with
two-way trans Atlantic communications by radio amateurs using the
Two Metre Band). If there is no activity from the operator he plan
to run a 2m Beacon (VO/DM8MM) on 144.300,7 MHz. Read more at:
http://www.mmmonvhf.de/latest.php?id=2456

Special-event station W1H (FN32RV) qrv on 2m/70cm EME
On Sunday, 3 May, I plan to operate special-event station W1H,
commemorating the coming 100th anniversary of composer Alan
Hovhaness. Operation will be from FN32rv near Brattleboro,
Vermont (or very close depending on where I can find a clear
view to the moon and not too much local noise.) Operation will
be over a four-hour period, starting at 1815 UTC moonrise.

LATEST NEWS from Bodo, 5N0OCH dated 2009-04-27:
Ho folks, I just want to remind you, that I will be QRV on 23cm coming Thursday (April 30) from 1700-2000UTC. I will call on 1296.090 in JT65C (tx first). I am happy to answer calls in CW as well. I will RX on my own echo frequency, no matter if I am in JT65 or CW. Otherwise it becomes just too difficult to find the stations. If all goes well, I am online and watch the HB9Q logger. I have added some information about equipment on my website www.dl3och.de so you may look there to decide if you are able to work me. I am coming closer to the rain season over here (which brings very heavy storms as well) so you should take this chance to work me since it becomes more difficult for me to be QRV via EME. I already got a taste of these kind of storm and rain but was able to fix everything. Vy 73 de Bodo 5N0OCH/5N0EME

Mark/M0MJH, Kevan/2E0WMG, Matt/2E0XIS and James/M0ZZO will be
active from the Isle of Man (EU-116) from 26 April to 1 May.
They will operate SSB on the HF bands (mainly 80, 40 and 20
metres) from most locations across the island, with the addition
of VHF/UHF during SOTA activities. Look for them to sign MD0MJH,
2D0WMG, 2D0XIS and MD0ZZO, as well as GT3CO and GT7SRA. Updates
will be posted to http://m0mjh.blogspot.com/

***

N0TG, WA4DAN and AA4VK will be active from Core Banks (NA-067)
from 23 UTC on 30 April through 15 UTC on 2 May. The island
is similar in environment (terrain, sand, sea, remoteness,
etc.) to Sable Island, and the purpose of the operation will
be a"test" of seven potential antennas for use at CY0 in
October. AA4VK will also test the feasibility of including
operating FM satellites (SO-50, AO-51, and AO-27) in the
CY0 operations. Frequencies and modes of operation from NA-067
will be posted to http://www.cy0dxpedition.com/
SOURCE: [425ENG] 425 DX News #938

***

Wayne, W5KDJ, will be active as 5R8KD between July 1-15th.
Activity will be on 160-6 meters using CW and RTTY.
QSL via his home callsign. Also on LoTW and eQSL.
